

```
import java.util.ArrayList;
import java.util.List;

class ArrayL {
    public static void main(String[] args) {
        List<String> food = new ArrayList<String>();

        food.add("Pizza");
        food.add("Burger");
        food.add("pasta");

        System.out.println(food);
    }
}
```
